

COMPANY PROFILE

About Us

Aspire Projects & Services is a diversified Omani engineering company delivering integrated solutions across MEP construction, facility management, ELV systems, firefighting, mechanical systems, lighting technologies, renewable energy, smart city solutions, specialized engineering products, and civil works. As a subsidiary of Galfar Engineering & Contracting SAOG, Aspire combines strong technical heritage with the agility of a focused engineering partner.

Our service model covers the full project lifecycle—from design support and engineering through procurement, installation, testing, commissioning, and long-term operations. Aspire's civil division strengthens this capability through fit-out works, waterproofing systems, renovation services, and construction works, enabling clients to work with a single trusted partner for complete engineering and infrastructure solutions.

Aspire also operates an MEP-focused trading division supplying engineered products for fire protection, ELV systems, mechanical equipment, lighting, renewable energy, and smart-city solutions including automated waste management systems. Through strategic global partnerships, we bring advanced technologies to the local market supported by strong commercial and engineering expertise.

Driven by innovation, sustainability, and disciplined execution, Aspire contributes to Oman's long-term development by delivering future-ready, efficient, and environmentally responsible engineering solutions aligned with Oman Vision 2040.

VISION

To be Oman's most trusted integrated engineering and technology partner, shaping a smarter, more resilient built environment.

MISSION

To deliver high-quality, innovative, and sustainable engineering solutions through disciplined execution, advanced technologies, global partnerships, and a skilled workforce-ensuring exceptional value for our clients and long-term contribution to the Sultanate's development.

Welcome Message from the CEO of Galfar

Aspire Projects & Services continues to evolve as a strategic contributor to the Galfar Group, strengthening its position as a reliable engineering partner within Oman's rapidly developing construction and infrastructure landscape. Our transformation is guided by a clear objective: to build a resilient, modern, and future-oriented organization capable of delivering consistent value to our clients and stakeholders.

Aspire's continued diversification across engineering, technology, and sustainable solutions reflects our commitment to supporting the nation's progress in alignment with Oman Vision 2040. With a capable management team and a growing workforce of dedicated professionals, Aspire is well-positioned to embrace new opportunities, adopt advanced practices, and deliver projects with excellence and integrity.

We remain focused on long-term partnerships, operational discipline, and a culture of innovation that encourages continuous improvement. As Aspire moves forward, I am confident in its ability to strengthen its market presence, enhance service quality, and contribute meaningfully to Oman's sustainable development journey.

Dr. Hamoud Al-Tobi
CEO

General Manager's Statement

Aspire is positioned as a specialized MEP and integrated engineering service provider within the Galfar Group, delivering high-quality, technology-driven solutions across Oman's construction and infrastructure sectors. We focus on disciplined execution, reliability, and value creation across the full project lifecycle.

Our strategy is anchored in sustainability, innovation, and operational excellence. Aspire is actively investing in renewable energy systems, energy-efficient MEP solutions, smart building technologies, and advanced engineering products that support Oman Vision 2040 and the development of resilient, low-carbon infrastructure.

Through carefully selected global partnerships, supported by strong local engineering and delivery capabilities, Aspire introduces proven international technologies to the Omani market while ensuring consistent, results-oriented execution.

Our direction is clear: to strengthen long-term client relationships, elevate service standards, and contribute meaningfully to the next phase of Oman's engineering and infrastructure development. With a committed team and a diversified portfolio, Aspire is well positioned to deliver sustainable value for our clients and stakeholders.

Core Values

Excellence

Delivering superior engineering performance and service quality.

Integrity

Acting with transparency, accountability, and fairness.

Innovation

Embracing new technologies and smarter ways of working.

Sustainability

Promoting efficient, environmentally responsible engineering aligned with Oman Vision 2040.

Collaboration

Building strong partnerships across teams, clients, and global networks.

People Development

Investing in talent, learning, and a culture of professionalism and ownership.

Strategic Pillars

Portfolio Diversification

Expanding capabilities across MEP, FM, civil and renovation works, ELV, firefighting, mechanical systems, lighting, renewable energy, and specialized products.

Technology Leadership

Adopting advanced engineering technologies, digital tools, and automation to enhance performance.

Sustainable Growth Pathways

Developing solutions that support energy efficiency, renewable power, and reduced carbon footprint.

Operational Discipline

Strengthening governance, safety, quality systems, and execution excellence.

Global Partnerships, Local Strength

Leveraging international expertise supported by strong local engineering, commercial, and delivery capability.

Workforce Empowerment

Building a high-performance culture through continuous development and leadership growth.

Corporate Commitments

Customer Focus

Understanding client needs and delivering tailored, high-value engineering solutions.

Quality Assurance

Consistent, reliable performance and compliance with international standards.

Sustainable Delivery

Reducing environmental impact through efficient, renewable, and responsible engineering practices.

Safety at the Core

Maintaining uncompromising safety standards across all operations.

Transparency and Integrity

Upholding ethical practices and trust-based relationships.

Innovation Culture

Continuous improvement and adoption of modern technologies.

Enduring Partnerships

Building long-term collaboration and mutual value creation with clients, suppliers, and global partners.

Capabilities & Services

MEP Construction

Comprehensive mechanical, electrical, and plumbing solutions delivered with engineering precision and operational discipline.

- HVAC systems and energy-efficient cooling solutions
- Electrical power distribution and low-voltage systems
- Plumbing and drainage systems (water supply and sanitary works)
- MEP installation, testing, commissioning, and engineering coordination.

ELV & Automation Systems

Advanced low-voltage and smart-building technologies.

- CCTV and analytics.
- Access control and biometrics.
- Home Automation.
- Public address systems.
- BMS and IoT-enabled automation.

Capabilities & Services

Facility Management

Integrated hard-services maintenance supporting asset performance and lifecycle optimization.

- Mechanical and electrical Maintenance.
- Preventive and corrective FM services.
- BMS monitoring and optimization.
- 24/7 operational support.

Firefighting & Life Safety

Complete fire protection systems designed and delivered to international standards.

- Sprinklers and fire suppression systems.
- Fire pumps and hydrant networks.
- Gas-based suppression.
- Fire alarm systems & Emergency Communication.
- Emergency lighting and central battery systems.
- Testing, commissioning, and maintenance.

Capabilities & Services

Mechanical Systems.

Specialized mechanical engineering solutions.

- Cooling towers, AHUs, and ventilation systems.
- Pumps, tanks, and mechanical utilities.
- Industrial HVAC systems.

Lighting & Façade Lighting.

Functional and architectural lighting solutions.

- Indoor and outdoor lighting.
- Street lighting systems.
- Media façade and architectural lighting.
- Lighting controls.

Capabilities & Services

Renewable Energy Solutions.

Energy-efficient and environmentally responsible systems.

- Solar PV solutions.
- Inverters and battery systems.
- Off-grid solar systems and hybrid energy solutions.
- Energy audits and power management.
- Smart integration with building systems.

Smart City Solutions & Automated .Waste Management

Innovative systems enabling cleaner and more efficient urban environments.

- Automated waste collection systems.
- Smart infrastructure technologies.

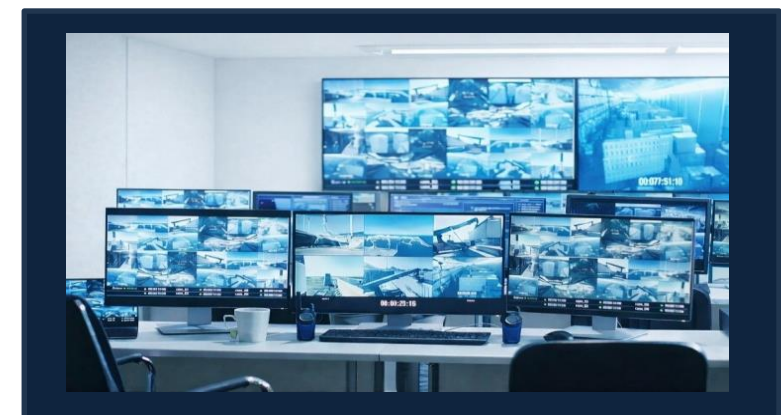

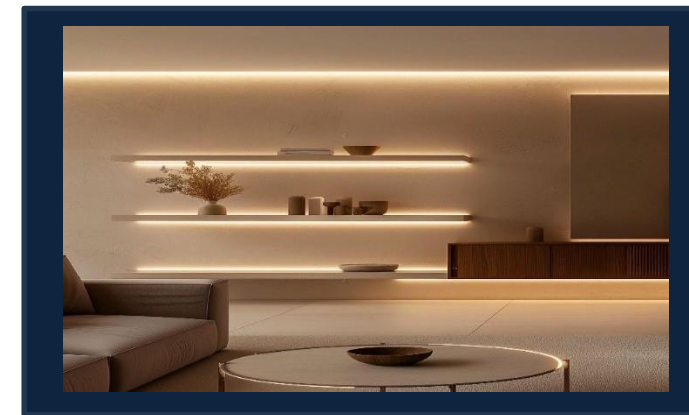

Capabilities & Services

MEP Trading Division

Engineered products supporting construction, infrastructure, and MEP industries.

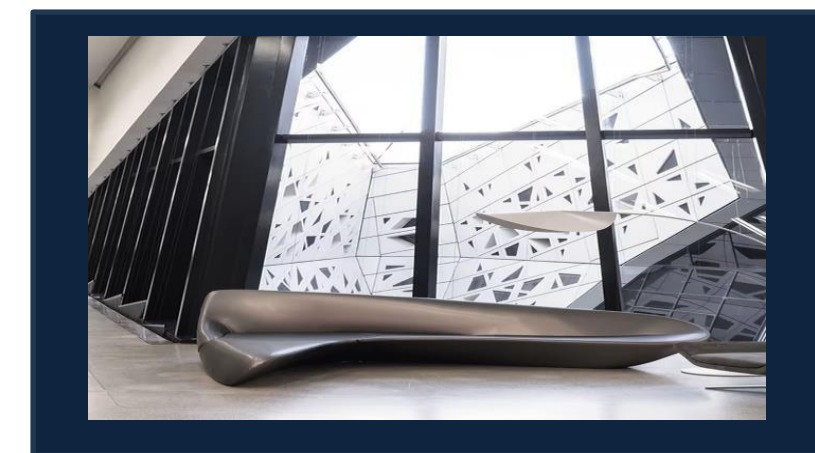

- Fire protection equipment.
- ELV and security systems.
- Mechanical Equipment.
- Lighting systems.
- Solar and renewable energy components.
- Infrastructure products.

Civil & Renovation Division

High-quality civil, architectural, and refurbishment works.

- Fit-out and interior works.
- Waterproofing systems and protective coatings.
- Renovation and building upgrades.
- Construction works.
- Finishing and architectural detailing.

Ongoing Projects

Project:
ROP Hospital/Medical City Hospital
Client:
Royal Oman Police

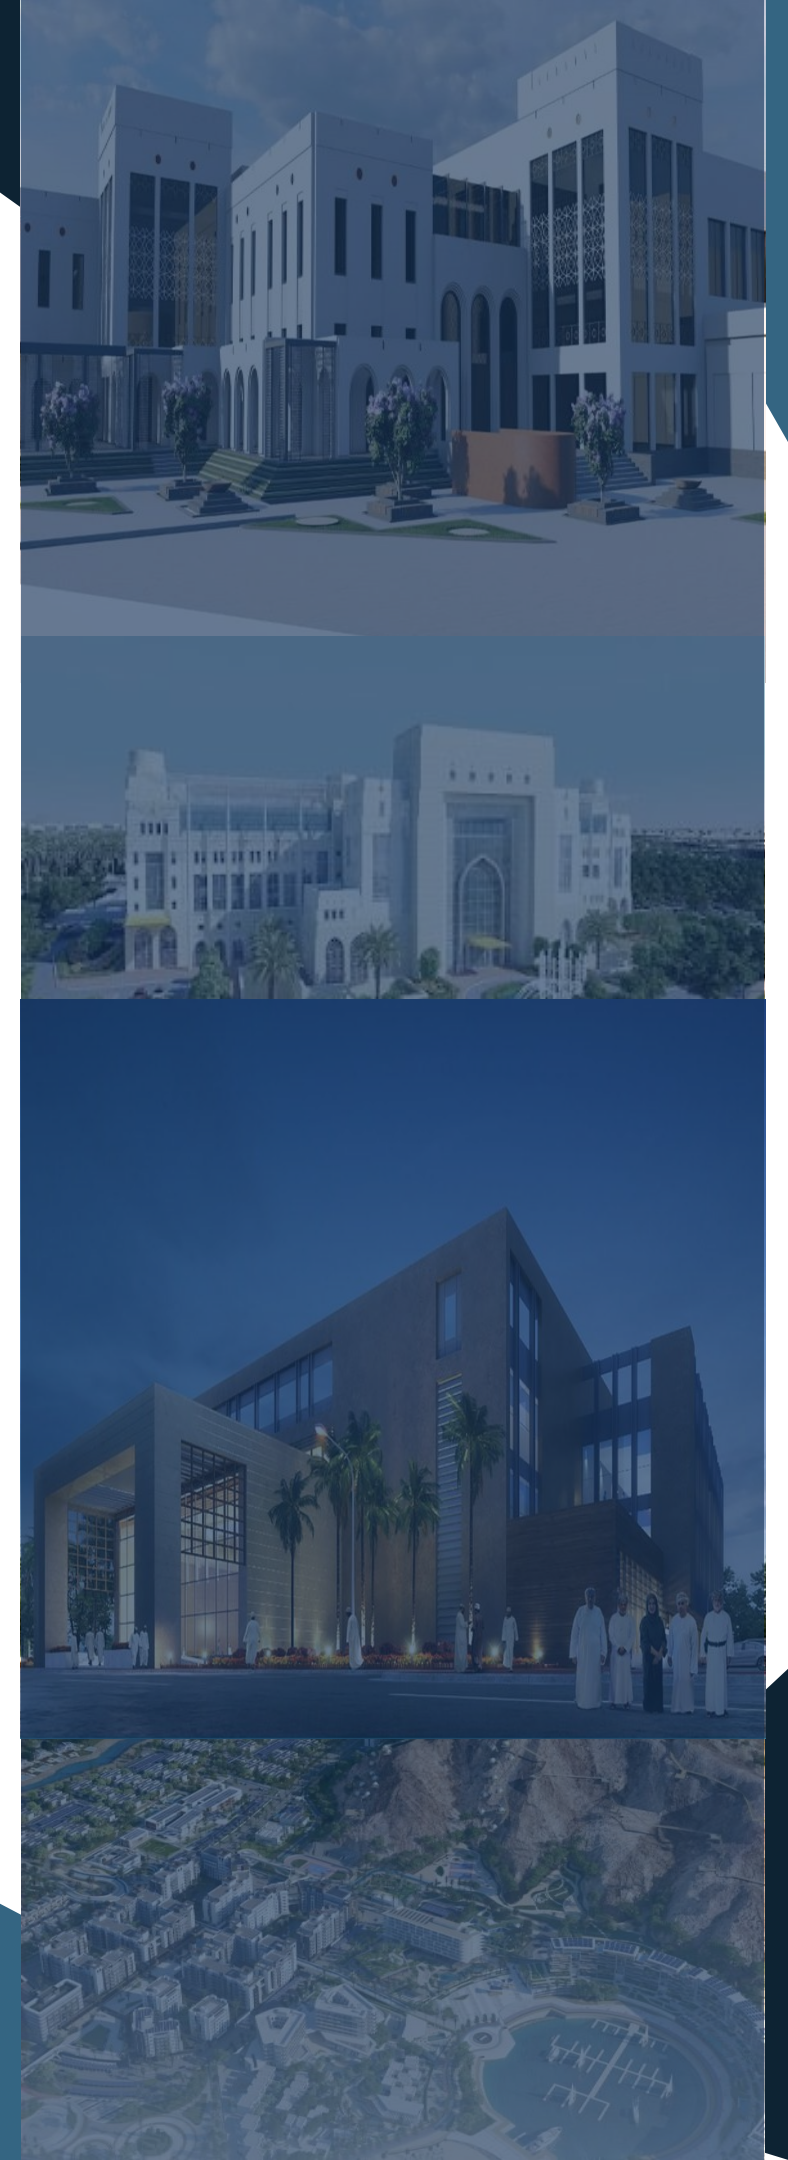

Project:
Jindal Shaheed Rolling Mill Steel
Client:
Jindal Shadeed Iron & Steel LLC

Project:
Central Public Health Laboratory
Client:
Ministry of Health (MOH)

Project:
Facility Management at National Museum
of Oman
Client:
Macro

Project:
Yiti Plaza at The Sustainable City
Client:
Oman Tourism Dev. Company

Project:
Al-Thuraya City
Client:
Target LLC

Facility Maintenance Projects

SL. NO	Maintenance Projects Name	Started	Completed	Client
1	Facility Management Project Corporate Centre Wattayah	2012	31st Jan 2025	Saud Bahwan Group
2	Facility Management Project, 3S Facility Buildings & Warehouse Buraimi	2014	31st Jan 2025	Saud Bahwan Group
3	French Embassy Muscat	2015	2016	French Embassy
4	British Council Al Khuwair	2016	2017	British Council
5	Fish Market Facilities Muttrah	2017	2018	Municipality
6	Al Ameen Mosque, Bowsher	2020	2024	Saud Bahwan Charitable Foundation
7	Hill View Tower Buildings for Bachelor's & Family Accomodation at Wadi Kabir	2022	2023	Saud Bahwan Group
8	Saud Bahwan Regency Building 1 & 2 Al Khuwair	2022	2023	Saud Bahwan Group
9	Saud Bhwan Residency Buildings 1 & 2, Al Khuwair	2022	2023	Saud Bahwan Group

Waterproofing & Painting Projects

Project:

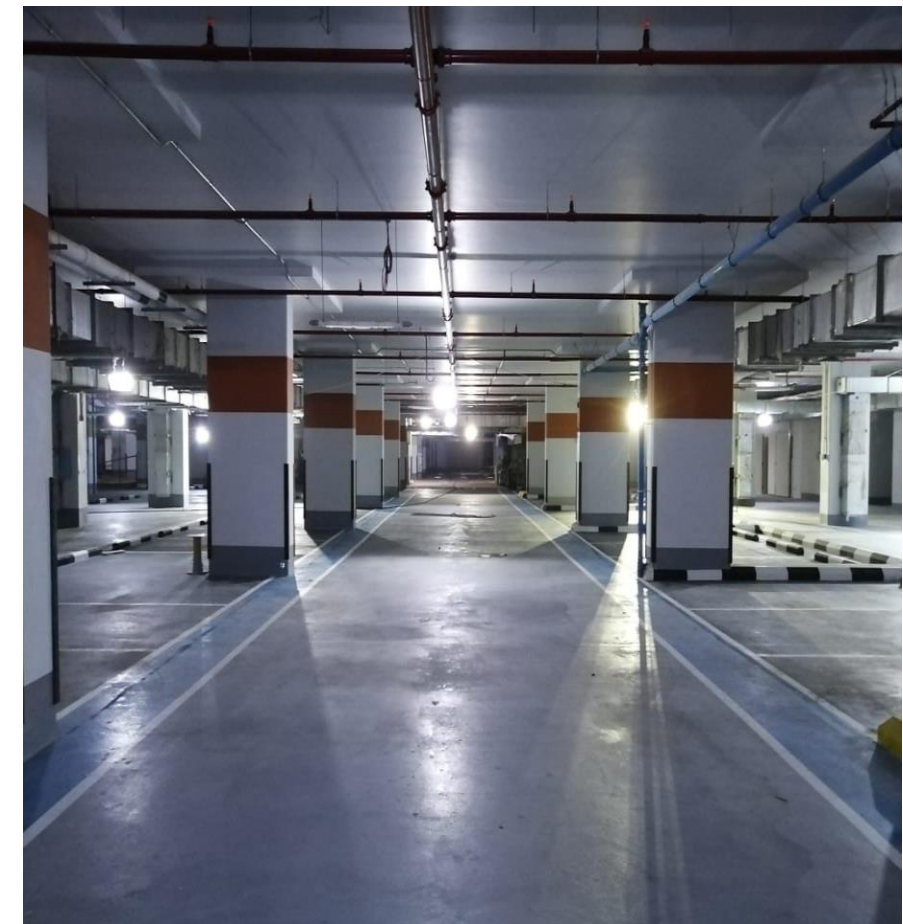

ROP Hospital/Medical City Hospital

● EIFS System

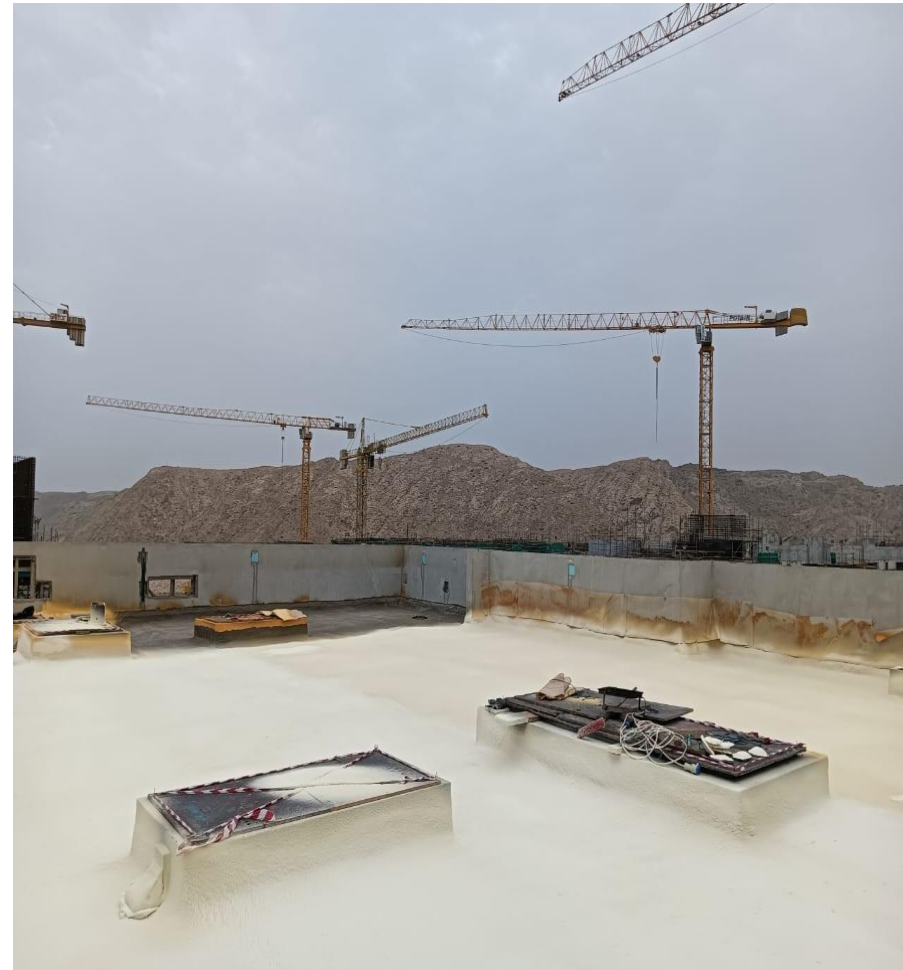

● Internal Painting & Patterns

● Floor Epoxy Coating

Waterproofing & Painting Projects

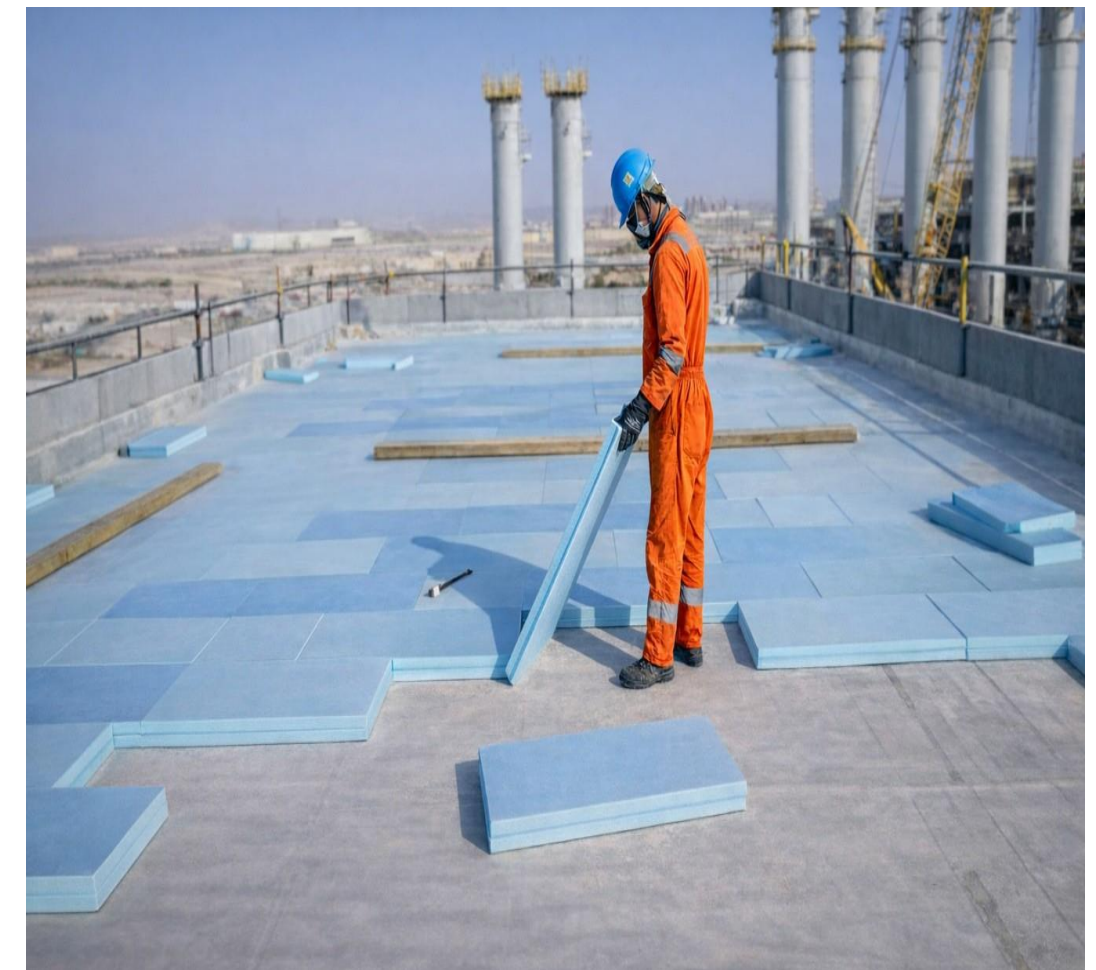

Project:
Yiti Plaza Project & Duqm Refinery

● Combo Roof

● Irrigation Tank GRP Lining

● Roof Waterproofing

Successfully Completed Projects

Project:

Sumail Prison

Scope of Work:

HVAC and integrated BMS/PLC-based security systems (access control, CCTV, perimeter protection)

Project:

Independent Water Project (IWP)

Scope of Work:

Engineering. Procurement, Construction, Commissioning of HVAC systems.

Project:

Occidental Oman (OXY)

Scope of Work:

EPC works for HVAC system.

Project:

Fish Market at Muttrah

Scope of Work:

Supply, installation, testing and commissioning of VRF units, Chiller system and Cold Rooms.

Project:

Antimony Roster Plant

Scope of Work:

Supply, installation, testing and commissioning of invertor Package and Split Units.

Project:

4D Cinema

Scope of Work:

MEP works including HVAC, electrical, CCTV, plumbing, fire fighting systems.

Project:

Bank Muscat HQ Building

Scope of Work:

Supply, installation, testing, and commissioning of Air-Cooled chilled water HVAC system, Over 1 km of pre-insulated buried chilled water piping, Dedicated BMS for system operation and monitoring.

Project:

Duqm Refinery EPC2 Offsites and Utilities.

Scope of Work:

Design of HVAC ducting with accessories and Installation, Testing and Commissioning of ducting and piping installation.
